Klondyke Playground Project

Everyone deserves a safe neighborhood to call home: a secure, healthy and enjoyable environment where family and friends can congregate and create memories. With your support, ADC will design and build a playground in the Klondyke Apartments for the 200+ children who currently have no safe place to play.

The community need

The Current State of the Playground

The process

Working with Klondyke residents through all phases of the process—from design to construction to routine maintenance—ADC volunteer designers will then transform the community’s ideas for play and gathering spaces into a set of designs that meet Klondyke’s needs.

Visit ashevilledesigncenter.org for updates on the project, other projects happening in your community, and information on sponsors and how to donate.
This project would not be possible without the support of the following partners:

- Charlotte Street Computers
- Asheville Affiliates
- Just Folks of Asheville
- Monford Neighborhood Association
- Housing Authority of the City of Asheville
- Asheville Greenworks
- Green Opportunities
- The ADC Design Team:
  - Jason & Julie Gilliland, Site Design Studios
  - Kevin Houk, Certified Playground Safety Inspector
  - Jonathan Capp, Architectural Design
- Laura Sanders, Landscape Design
- Warren Perdue, Metal Sculptor
